SAB: Engineering In-service Training 2026/27 Apply Now

Description

The Engineering In-service Training program at SAB Brewing provides aspiring engineers with an opportunity to apply theoretical knowledge in a practical work environment. Under the guidance of experienced professionals, trainees will gain exposure to various facets of brewing and maintenance within our production facilities.

Responsibilities

- Assist in routine maintenance tasks and equipment inspections.
- Participate in troubleshooting and repairs of machinery and systems.
- Collaborate with engineering teams to support ongoing projects.
- Contribute to the implementation of safety and quality standards.
- Learn and apply engineering principles to optimize production processes.
- Document observations, findings, and solutions as part of the learning process.

Qualifications

- Currently pursuing a degree or diploma in Mechanical, Electrical, Chemical, or Industrial Engineering.
- Strong academic background with a passion for engineering and manufacturing.
- Excellent problem-solving skills and a proactive approach to learning.
- Ability to work well within a team and adapt to a fast-paced production environment.
- Good communication skills and eagerness to learn from experienced professionals.

Job Benefits

1. **Hands-On Experience:** Gain practical exposure to real-world engineering challenges in a leading brewing company.
2. **Learning Opportunities:** Work alongside seasoned professionals, learning from their expertise and guidance.
3. **Skill Development:** Develop technical skills in maintenance, troubleshooting, and optimization of production processes.
4. **Networking:** Build connections within the industry and create a professional network.
5. **Career Development:** Lay a strong foundation for a future career in engineering, potentially leading to employment opportunities within SAB Brewing or the broader industry.
6. **Exposure to Industry Standards:** Learn about industry-specific regulations, quality standards, and best practices.
7. **Personal Growth:** Enhance problem-solving abilities, teamwork skills, and adaptability in a dynamic work environment.
